About

My devotion for developing applications spans far beyond just the basics. My services are tailor-made to fit every business, to glorify every brand and to bring ideas to life, delivering only the best for clients; an application that truly portrays whilst incorporating an exceptional, unique and state of the art design that stands out from the rest. I have a Bsc degree in Software Engineering in addition to that I have 2 years worth of knowledge and experience around developing Mobile and Web-based applications for budding and established businesses by targeting their requirements .
